

Backbone Connect

Connectivity & technology at
Curtis Building, Ravenscourt

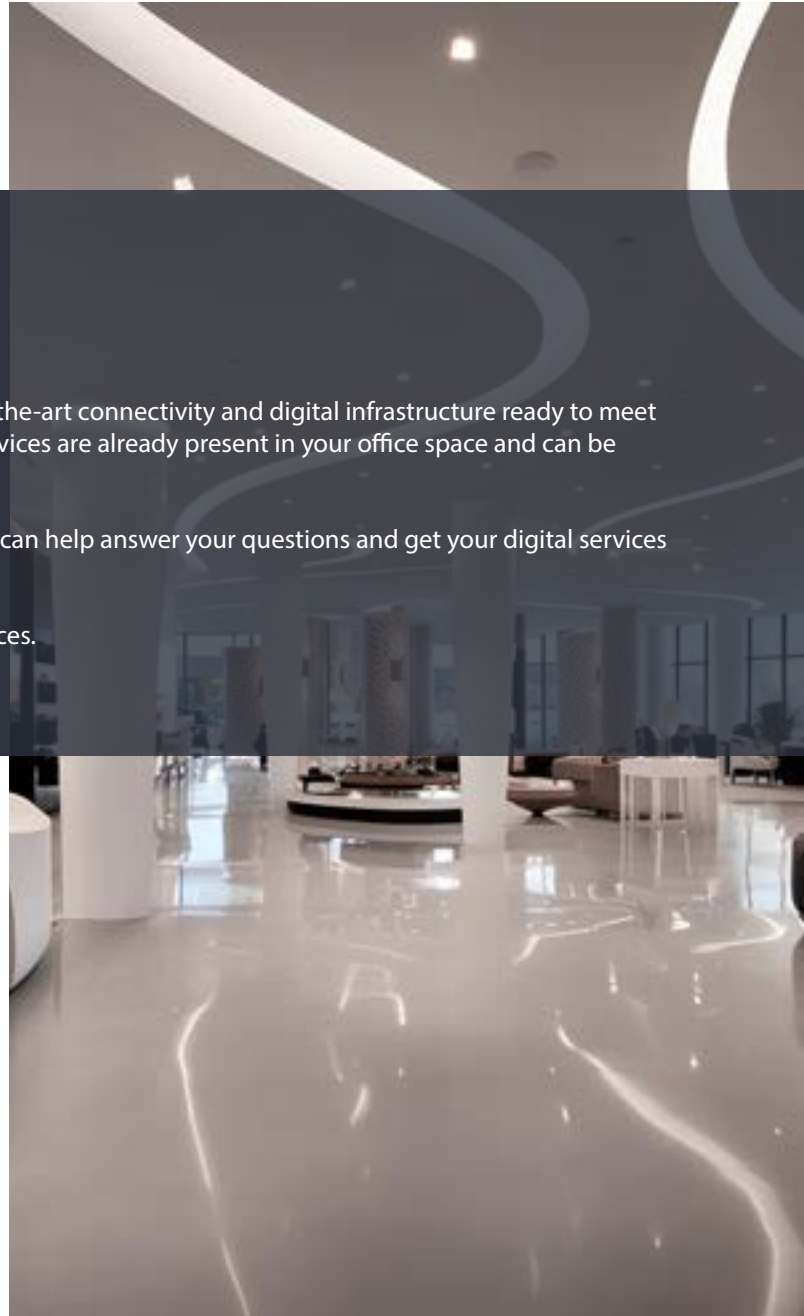

Welcome!

Curtis Building, Ravenscourt is pre-installed with state-of-the-art connectivity and digital infrastructure ready to meet the needs of your business. Our wayleave-free internet services are already present in your office space and can be delivered in just few days.

The Backbone Connect team knows the building well. We can help answer your questions and get your digital services up and running without fuss.

For now, here's a quick overview of our most popular services.

Connectivity

With Backbone Connected Services you will be up and running in just a few days and without the usual uncertainty. Our team already manages and supports the connectivity in your building, and we can support your users.

Installing a new internet connection to an office can take months. The average is more than 100 days. But worse is the uncertainty of not knowing when you will get connected, especially when a delayed internet connection can delay an entire office move.

Managed LAN

Complement a business-grade internet service with a business-grade network. Our team specialise in providing robust and reliable infrastructure which can transform any office into a buzzing connected space.

Our team will work to understand your specific needs before assembling a fully managed network solution made from our tried and tested building blocks.

Multisite

Backbone Connect provides business-grade connectivity services across the United Kingdom, Ireland, and Europe. Our platform is connected to all the major network providers enabling us to provide Internet, MPLS, or SD-WAN service at all access types, whichever best suits your needs.

Regardless of location, we can serve and connect your premises. Whether it's your headquarters, branch office, data centre, showroom, warehouse, distribution centre, or retail outlet – we've got you covered.

Getting you **connected**

Fast, reliable Internet and WAN connections **ready to use in as little as 5 days***

	Backbone Essential	Backbone Resilient	Backbone Secure	Industry Standard
Speed	100Mb to 10Gb	100Mb to 10Gb	100Mb to 10Gb	100Mb to 10Gb
Install	From 5 days*	From 5 days*	From 5 days*	average 100+ working
Backup	No	Yes	Optional	Optional
